

TAKING PLASTIC WASTE NOBODY WANTS AND TRANSFORMING IT INTO PRODUCTS EVERYBODY NEEDS

THE NEXT GENERATION TECHNOLOGY

Clariter ends the life of plastic waste by transforming it into new ultra-pure, high-value products, which can replace fossil-based petrochemicals in thousands of industrial applications.

While most other technologies recycle plastics back into plastics, or to energy or fuel, Clariter's propriety technology breaks this frame and creates new green petrochemical products for the industry.

MEET OUR PRODUCTS

Clariter provides a sustainable alternative to fossil-based products suitable for endless applications. Discover the limitless possibilities of our product families:

Solventra®
Aliphatic solvent.
Perfect for coatings, paints and inks, pharmaceuticals, cleaners, and more.

Clariwax®
Snow-white paraffin wax.
Useful for car care, polishes, food packaging, wood protection, candles, and more.

Oilter®
White mineral oil.
ideal for Li batteries, silicone sealants, cosmetics, and more.

MADE WITH CLARITER™

Finally, sustainability, profit and quality can meet under one roof. Clariter solutions help customers to be more competitive and resilient. Our process and products are:

Top quality

Our odorless, colorless, and sulphur-free products meet the top industry standards, including FDA, cosmetic and pharmaceutical purity levels.

Broad acceptance

Our process accepts most plastic types, including mixed and contaminated plastics.

Market leading yield

With a 80-85% yield, we lead the market in driving an efficient, highly profitable process.

Our plant in
South Africa

Clariter offers a winning combination of sustainability, efficiency and profitability that unlocks the value of the circular economy.

MAKE AN IMPACT WITH CLARITER

Whether you are a manufacturer looking to switch from fossil-based products to green alternatives, a CSR manager aspiring to adopt sustainable practices without sacrificing profitability, or a policymaker striving to achieve environmental goals and reduce dependency on fossil fuels – Clariter offers solutions to ensure that each partner finds the perfect fit.
