Plug & Play Configuration

- Combines All Elements Needed To Provide Safe Drinking Water:
Source, Treatment, Storage, Distribution
- Simplicity Installation & Operation

Automatic

 Just A Click On a Button, And Less Than 30 Minutes You Will Have Safe Drinking Water!

Easy Operation

-  Can Be Monitored By Any Smartphone Or Tablet Or Smartwatch
-  Smart control system

The image shows an aerial view of the GALMOBILE Water Purification Vehicle, a specialized truck equipped with various water treatment technologies. The vehicle's chassis is visible, featuring a large black storage tank at the rear, a central engine compartment with a 'KOHLER DIE' label, and a front-mounted pump assembly with a large impeller. A complex network of hoses and pipes connects these components. A prominent blue banner with white text is overlaid across the center of the image.

Combination of Technologies

Creates A Robust & Aesthetic Design

Safety

-  12V Low Voltage System
-  No High Voltage Or Generator
-  High Resistant To Weather Conditions

Small Dimention

-  Lightweight - 1,1 ton
-  Easily Moved Via Air, Land Or Marine Transport

High Transferability

 4X4 Wheel Drive

 All-Terrain Vehicle

Rural Areas
