Smartens Up Your Dumb Sprayer

TAKE CONTROL OF EVERY DROP

"The reports shed light on our spraying process, revealing details we never noticed before."

Moti - Owner - Yanai Nurseries

"For the first time, we opened our eyes, your reports are a game-changer."

Tomer - Sn. agronomist - Ilan Nurseries

KEY PAIN POINTS:

1. Missed Spots = Missed Profits

- You can't see where you missed, but your pests and diseases can.

2. Wasted Chemicals = Wasted Money

- How do you know you sprayed the accurate dosage?

3. No Feedback = No Control

- Spraying blindly means guessing on effectiveness, leading to inefficiency.

HOW WE TACKLES IT:

1. **Attach & Go:** Seamlessly integrate with your existing sprayer—no new equipment required.

2. **Spray as Usual:** Sensors track every movement, spray pattern, and coverage area.

3. **Get Your Report:** After each spray, receive a detailed, actionable report including:

- **Visual Maps:** Color-coded spray paths and heatmaps.
- **Alerts:** Highlighted missed spots or deviations.
- **Key Metrics:** Coverage, spray time, and chemical usage insights.

KEY METRICS:

- **Cost Savings:** Up to 30-40% on overall spraying expenses.
- **Operational Insights:** Identified critical spray issues that improved crop health.
- **Customer Retention:** 100% pilot-to-client conversion

THE SOLUTION

What's in the Report?

- Each report provides essential details and insights, helping you optimize your spraying practices.
- Daily Summaries with Key metrics and full transparency on spraying behavior.

The Data:

• Critical Points and Alerts

- Spray Effectiveness Analysis
- Operator Location Tracking
- Spraying Duration Summary
- Visual Data that Includes track overviews and scatter heat maps for quick decision-making.
- Coming soon:
 - Spray Coverage Map
 - Materials calculator
 - Command Creation

The Benefits/ UVP

- *Attaching seamlessly to your existing sprayer, without interrupting your workflow or renew your equipment.*
- *Reduces pesticide waste, labor costs, and crop loss - All in one!.*
- *Manages the entire spraying process, from planning to execution and analyze it - in your hands.*

COSTUMER TESTIMONY:

"Our pest inspector was impressed with the improved pest control"

"We're constantly learning from the reports, identifying new insights and spotting gaps in execution"

"We're saving money, improving pest control, and learning from every report."
